Hoosen Coovadia, M.D.
IMPAACT International Vice-Chair

TO: Global HIV Community Members

RE: Welcome to the IMPAACT Network

On behalf of the IMPAACT Leadership, we would like to take this opportunity to personally thank you for participating as a Community Member at your site. The vast array of domestic and international Community Members such as yourselves will help inform the efforts of our researchers actively working within the IMPAACT Network and help to move science forward on the road to finding safe and effective treatments for HIV infection in women, young people, and children.

We look forward to working with you as a global HIV Community Member and view your active participation within IMPAACT as an important strategic partnership. We value your input and firmly believe that the overall success of the IMPAACT Network will only be complete when researchers and members of our vast global HIV Community work together as one.

Thank you for your time and passion to complete the work of the IMPAACT Network!

Sincerely,

A handwritten signature in black ink that reads "Brooks Jackson". The signature is written in a cursive, flowing style.

Brooks Jackson, M.D.
